Paul A. Rossi on Flint's water crisis reveals government failures at every level

Author: Paul A. Rossi Posted on: Jan 24, 2016 01:33 AM

Imagine the response if ISIS had poisoned the **water** in **Flint** and harmed so many people, especially the children? Why isn't this considered a deliberate act of terrorism by the government officials who knowingly hushed it up and/or delayed action? Oh, yes, but of course nobody is responsible.

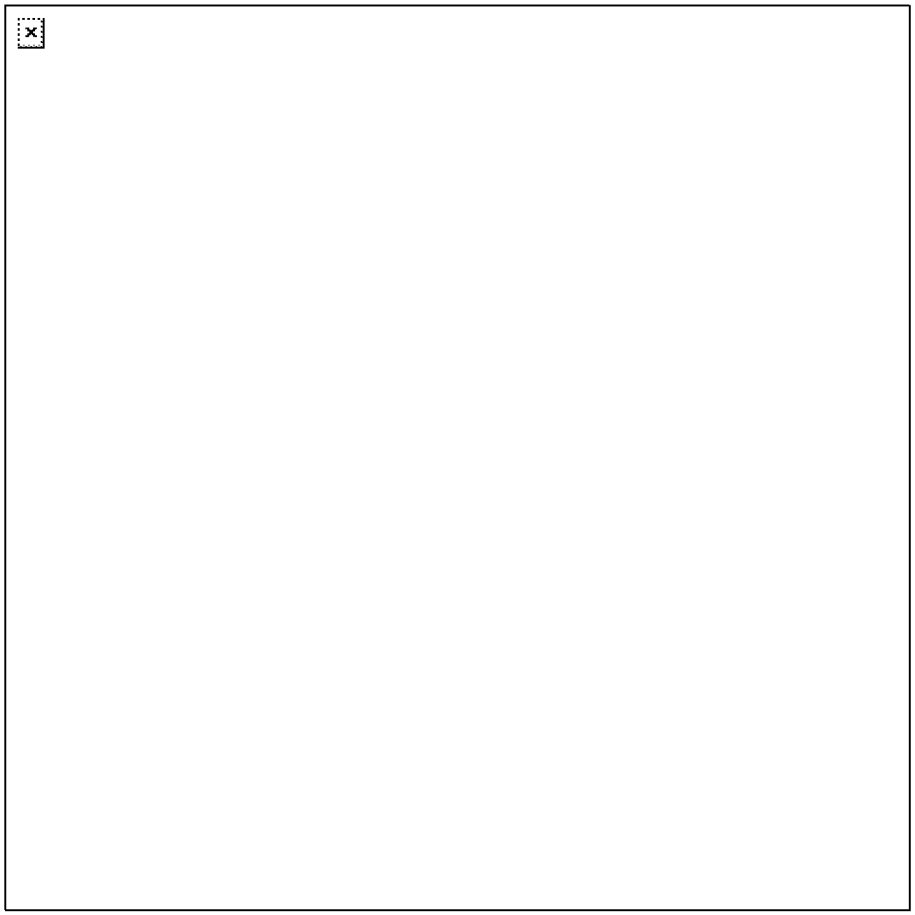
From: Dept. Technology, Management & Budget <dtmb@govsubscriptions.michigan.gov>
Sent: Tuesday, January 26, 2016 8:39 AM
To: Fick, James (DTMB)
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

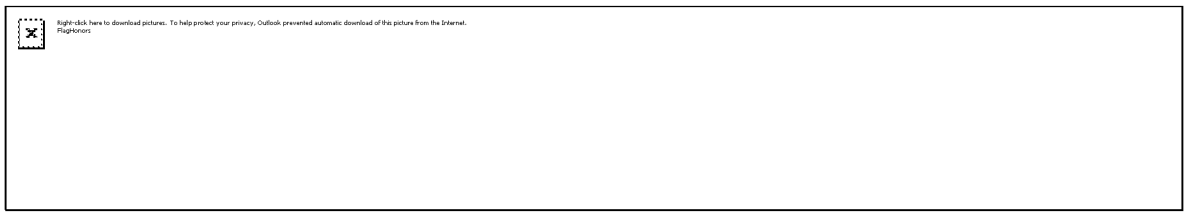
To: Fick, James (DTMB)
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

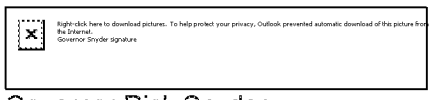
I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,



Governor Rick Snyder

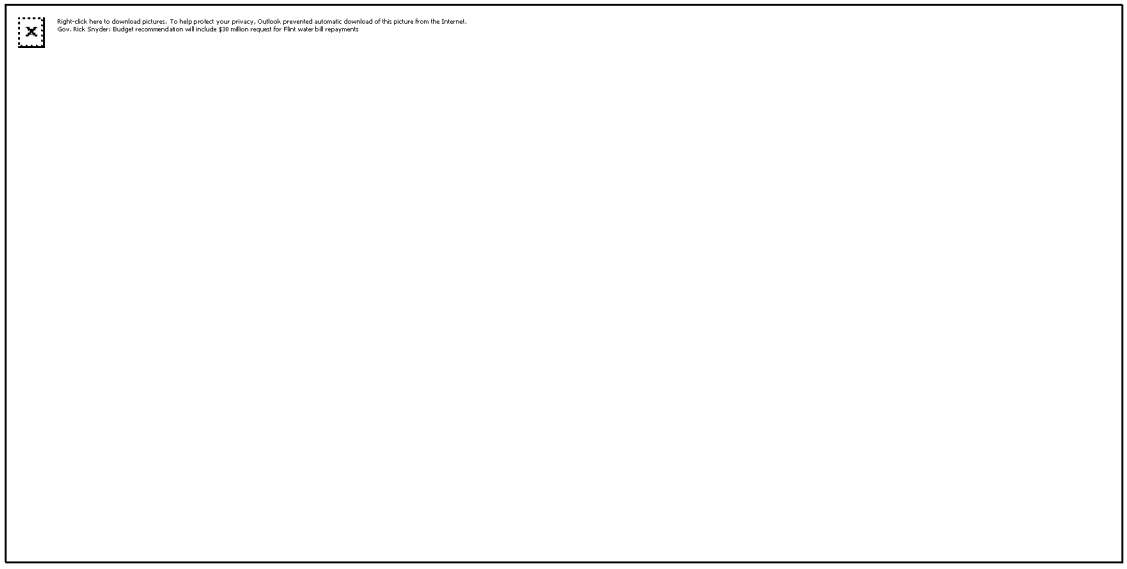
To: Fick, James (DTMB)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

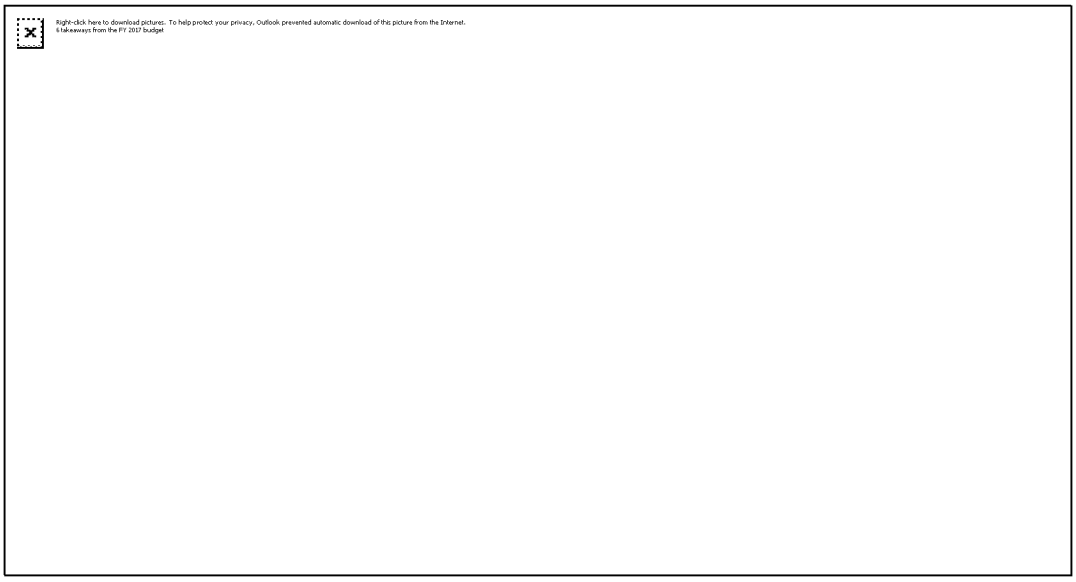
VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

VIDEO: How volunteers are helping Flint

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.
Click here to watch the video

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

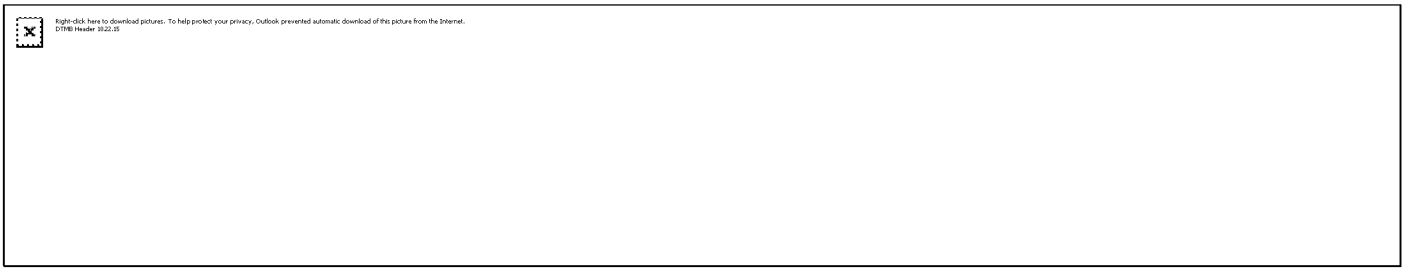
To: Fick, James (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

DTMB Director Briefing
Department of Human Services
Agency Partnership Meeting

Update

- **Healthy Michigan Program**
  - HMP released April 1st.
    i. Special reports in development for release in June – show detail on HMP (approved, denied etc.)
  - Release 4 moved to June 27th to accommodate additional work requests.
    ii. Scope includes presumptive eligibility
- **Electronic document management – wave 4 expansion**
  - 11 counties, including Macomb and Wayne launched on June 9th. This represents an estimated 70% increase in document volume.
    - Server environment increased for demand. Application fixes installed by IBM.
    - Additional temp staffs on-line to accommodate central scan and indexing work load.
- **Lobby Kiosk project**
  - Post HMP, experiencing high error rate in counties – 40 new tickets created each day (600 kiosks in operation state-wide). Root cause - Network, equipment, Mi-Bridges application.
    - Process improvements and fixes to Mi-Bridges have reduced new tickets to average of 5 per day. Daily updates sent to DHS leadership.

- **Mi-SACWIS project**
  - Launched April 29th.
  - Production support includes emergency fixes and planned releases.

- **Bridges asset test project on target for initial release July 27th.**

- **Bridges and Mi-Bridges version 2.0**
  - Work group across DHS, DCH, DTMB and Deloitte planning for modernization of Bridges leveraging Federal 90/10 funding. 18 month project schedule tied to available funding at 90/10 level and duration of existing Deloitte M&O contract.

- **Audit planning**
  - Work group between DTMB and DHS completing list of all known audits with outstanding corrective action plans. This will result in targeted projects (if not begun) to address findings within timeframes committed to in audit response letters. Target date for complete list and plan – June 20, 2014.

General Procurement Comments (apply to all agencies):

- Vendor price increase requests are already coming in based on the **recent minimum wage increase**. This is anticipated to impact multiple contracts, especially those like janitorial services, security guard services, snow removal, landscaping, tree and shrub removal, etc. All price increases will be aggressively negotiated, in conjunction with the affected agencies; however some budget impacts may be unavoidable.
- **ERP** award recommendation has been made (to CGI). We have received one protest from Accenture and a meeting is being scheduled with Accenture to discuss. Ad Board date: 6/24. Anticipated contract start: 7/14.

DHS Procurement Projects

- Some **regional janitorial contracts** are coming up for bid in the next year. DHS purchasing staff graciously agreed to meet with Procurement to provide lessons learned from the historical bids.
- Recently several **janitorial service companies requested 40% or more price increases**, negotiations were not fruitful, and option years could not be exercised. Procurement successfully moved affected offices to other existing contracts, allowing service to continue uninterrupted.
- RFP development in-process for a public assistance **call center** to address an influx of Affordable Care Act (ACA) and Medicaid expansion calls.

Issues/Concerns

- DHS Badge Issue – Briefing from Jason Nairn is attached. DHS has received an audit finding related to their identification of DHS employees throughout the state. The audit finding recommended a uniform ID for all DHS employees. Our recommendation is that DHS be required to use the DTMB ID and pay for the service, however, DHS does not like the cost or process. On May 9, Duane declined the offer from DTMB CIP to produce the badges and decided to produce the IDs internally – this is a significant risk and state employee IDs should be standardized across all departments.

Follow-Up Items from Prior Meeting(s)

- **Mi-SACWIS budget.**
  - Update: Funding for one year maintenance in place. $4 million "hold-back" being released when Unisys completes 129 identified defects and completes 65 reports deferred until post "go-live". Formal notification letter sent to Unisys.
- **Enterprise fraud data share agreement.**
  - Update: In place for MDOS, DCH, Treasury and UIA. Agreement reached with Civil Service on accessing employee data for workers within DHS and UIA (initial project scope).

Prior Meeting: Maxey – Duane was going to talk to Jan Winters then Jeff Brownlee.
Update: Duane indicated that Maxey was taken off the table at this time, and no further work has occurred on it.

Agency Overview Monthly Report
Department of Human Services (DHS)
June 2014

Agency Description

The Michigan Department of Human Services (DHS) serves the state's vulnerable children, adults and families, and oversees the state's safety net programs that directly impact residents' lives. DHS directs the operations of income support and child welfare programs through a network of more than 100 county DHS offices around the state.

DTMB Staff: 587 employees
Full Time: 198
Contractors: 389

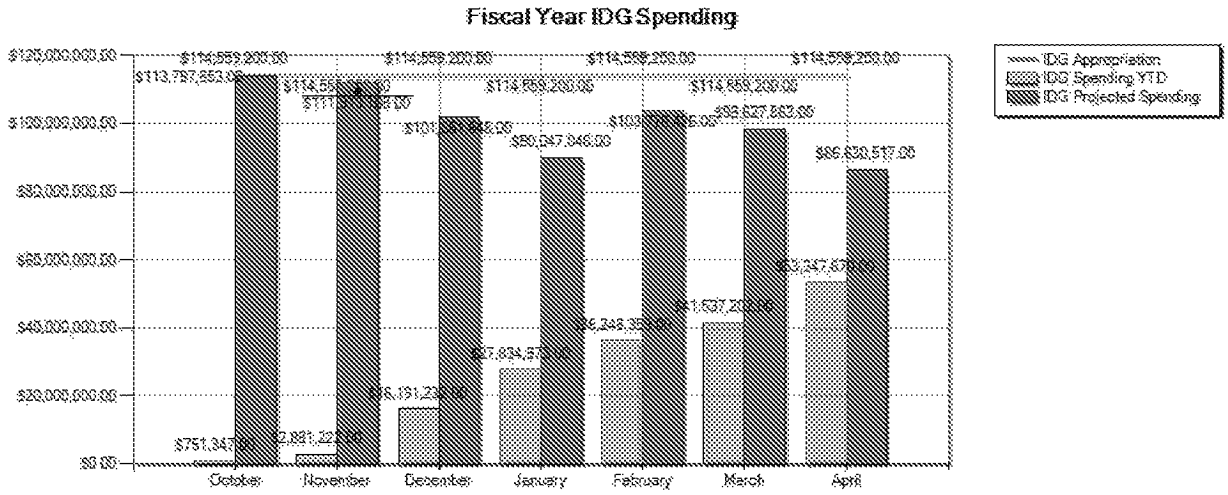
Agency Partners: 11,621 employees

Counts updated quarterly

Financial Update

	Budget	Year to Date	Projected Spending	Estimated Total
IDG Appropriation:	$114,559,200.00	$53,347,670.00	$86,630,517.00	$139,978,187.00
Non-IDG Funding:	$41,841,326.00	$21,545,827.00	$20,295,499.00	$41,841,326.00
Total IT Expenditures:	$156,400,526.00	$74,893,497.00	$106,926,016.00	$181,819,513.00

DHS still projecting a $27 million deficit



Due to the timing of invoices/billings to agencies, the data represents the Reporting Month's actual expenses for IT Services as billed to the client agency.
Reporting Month: April 2014

Time to Restore to Service - Workstation

Time to restore service is the time it takes to resolve an issue related to passwords, personal computer, printer, desktop operating system, eMail, MiPrint, enterprise applications, secure ID/new generation laptop, network, agency application, virus/spyware and other issues.

	Prev. Month
Resolved the same business day:	84.7%
Resolved in 1 to 3 days:	8.7%
Resolved in 3 or more days:	6.6%

New Equipment Deployment Metric

Time to deploy new equipment is the time it takes to set up and configure a new computer (after it has been received from the vendor) and make it

available to the client for use.

	Prev. Month
Deployed in 45 days or less:	-
Deployed in more than 45 days:	-

Customer Satisfaction Survey

The customer satisfaction survey is sent to the clients after their help desk remedy ticket has been resolved. The survey consists of five questions related to the service the client has received.

	Prev. Month
Surveys Sent:	6,492
Surveys Returned:	619
Overall Rating:	4.76

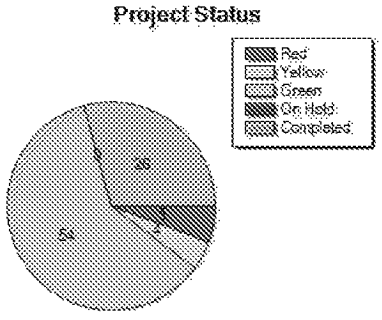
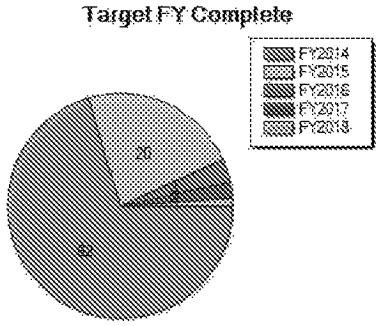
Portfolio Update





- **DHS EDM Statewide Rollout** — Status: Green

  Project Manager: Mary Caruso | Project Start: 9/30/2013 | Initial Budget:
  Business Owner: | Planned Finish: 9/5/2014 | Actual Cost to Date: $17,460.00

  Description: Rollout the EDM solution utilizing DataCap and FileNet to the DHS local offices. The solution was implemented on 2/4/2013. Rollout is expected to last 5 waves as of 2/4/2013.

  Activity Status: Security spreadsheets for users have been completed. Security access and Bridges, Scanning and Indexing accounts have been completed for Wave 4 and are in process for Waves 5 and 6.The training memo for Wave 4 has been sent and training is scheduled to begin.

- **DHS JJOLT 2012-237-JJOLT** — Status:

  Project Manager: Jeff Beasley | Project Start: 1/27/2014 | Initial Budget: $0.00
  Business Owner: | Planned Finish: 4/30/2015 | Actual Cost to Date: $0.00

  Description: Replace current JJOLT system with a solution obtained through RFP.

  Activity Status: NOD (Notice of Decision) document was approved to place the current project on hold until the MiSACWIS project is closed out and can provide resources to help develop MiSACWIS portion of the requirements for interfacing with the juvenile justice application and exchange of data. This will delay the JJIMS project and may cause the project to miss it September 30, 2015 go-live date. Also causing additional JJOLT maintenance cost as the ongoing maintenance and hosting support will need to be extended until the new JJIMS system is implemented.

- **DHS Windows 7 Upgrade** — Status: Red

  Project Manager: Thomas Rogers | Project Start: 10/23/2013 | Initial Budget:
  Business Owner: | Planned Finish: 8/29/2014 | Actual Cost to Date: $2,700.00

  Description: This project will upgrade DHS and DTMB PCs from Windows XP to Windows 7.
  Pilot has been delayed pending certification of DHS software. Expected Pilot date will be June 9.

Activity Status:

- **MCP R4 - Bridges-MI Bridges ACA Compliance**

Status: Green

Project Manager:	James Avery	Project Start:	3/3/2014	Initial Budget:	
Business Owner:	Holly Roderick	Planned Finish:	8/8/2014	Actual Cost to Date:	$197,820.00

Description: MCP Release 4 for Bridges and MI Bridges will focus on enhancements and fixes for presumptive eligibility. Deferred functionality from prior releases, fixes and enhancements, will also be included for R4.

Activity Status:

Project data as of: Tuesday, June 03, 2014

State Employee ID Issues – DHS

Background

- DHS has received an audit finding related to their identification of DHS employees throughout the state. The audit finding recommended a uniform ID for all DHS employees. As such, DHS approached us to provide DTMB-issued state ID's for their outstate personnel. Because these outstate personnel are in leased facilities, we told them there would be charges. They agreed to pay for the service but as you can see disagree with the rates.
- The rates we charged are based on our service catalog, and were developed based on the attached table.
- DHS would send us lists of personnel wanting ID's. We require the DTMB-624 form be filled out to verify the credential, then we process the ID. Prior to processing we send them a DTMB-123 form with the estimated cost for their review before the ID's are processed. Those are what were attached to the DHS email.

Problems

- DHS does not like the process. They do not want to have to fill out the 624 form for their employees. We require verification of ID and signature of authorized DHS reps because this is a state government issued credential that is recognized by the Secretary of State as a valid state ID. We are required to manage the process and documentation by our auditors.
- DHS does not like the cost, which is based on the service catalog and accurately reflects a very efficient 7 cards per hour production rate. See attached table.
- DHS has not been managing the process well, and we have had confused county officials contacting us directly increasing the workload for DTMB. We requested that they assign a single point of contact to manage the process for DHS which they did and it helped.
- DHS has not requested the appropriate ID's in some cases or provided employees with information about how to properly affix stickers to existing ID's etc. We have had DHS employees presenting in DTMB buildings with stickers mashed together or stuck on other materials and some guards have mistaken these for faked ID's. There is little management of the process once the ID's leave DTMB, i.e in the field offices.

Recommendations

- Our recommendation is that DHS be required to use the DTMB ID and pay for the service. This is why:
    - We advocate a uniform state ID for all state employees;
    - That ID must retain the integrity of the existing DTMB issued ID;
    - The process must be properly managed end to end.

- As an option, DTMB could negotiate a lower price for the service, or reduce or eliminate the labor rate, but this discussion should include Tina because it will affect the BOA budget. We are sticking with the service catalog rate because this is why we have it.
- If DHS produces their own ID's, which they can do, there is a significant risk that they could try to make them look like ours causing confusion in the state. Additionally, they will likely not have the experience or expertise to manage the credentialing process according to appropriate standards, calling into question the validity of their ID's. As such, we would not recognize their ID's for access to DTMB buildings, including Grand Tower, Flint SIB, Jackson SOB, etc. **which will surely cause a curfuffle in the future**. This is a key reason for the uniformity of ID and process.
- Ultimately, the goal of the state ID is identification of state employees as state employees. That is and should be a uniform process resulting in a uniform credential.

Update – May 2014

- On April 16, 2014, DTMB CIP met with Duane Berger to discuss the proposed charges for the development of DHS employee ID's for all out state personnel.
- The attached documentation was presented at the meeting, with the proposed costs being presented as the "Student" option.
- In a subsequent email dated May 9, 2014, Duane declined the offer and has decided to produce the ID's internally.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

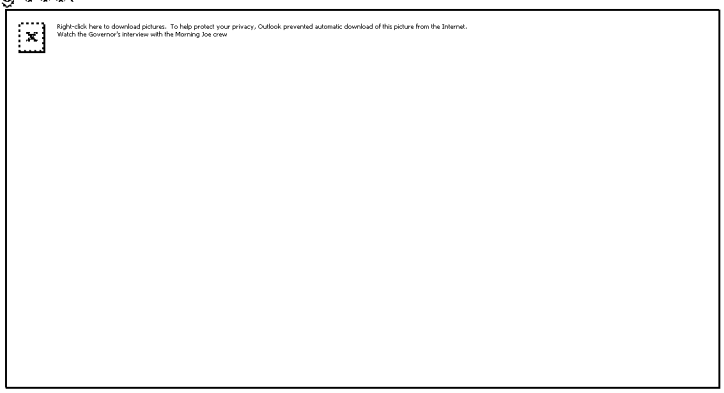
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

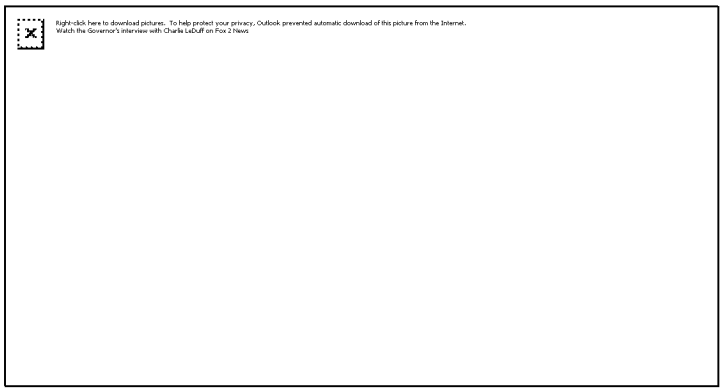
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

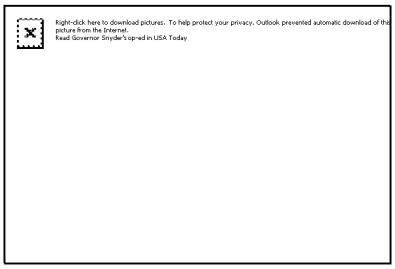
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

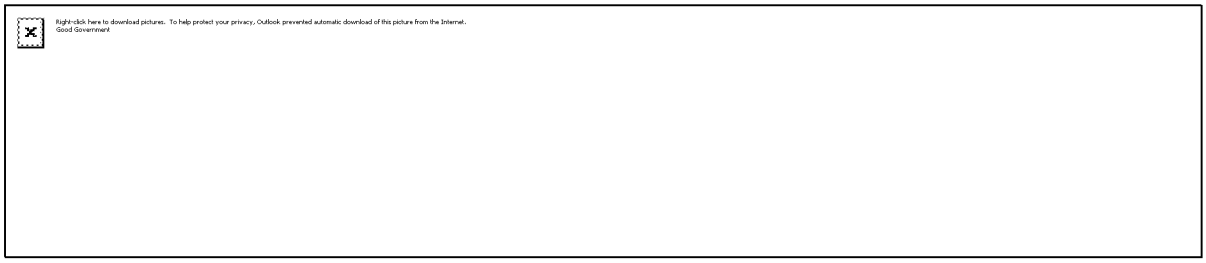
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

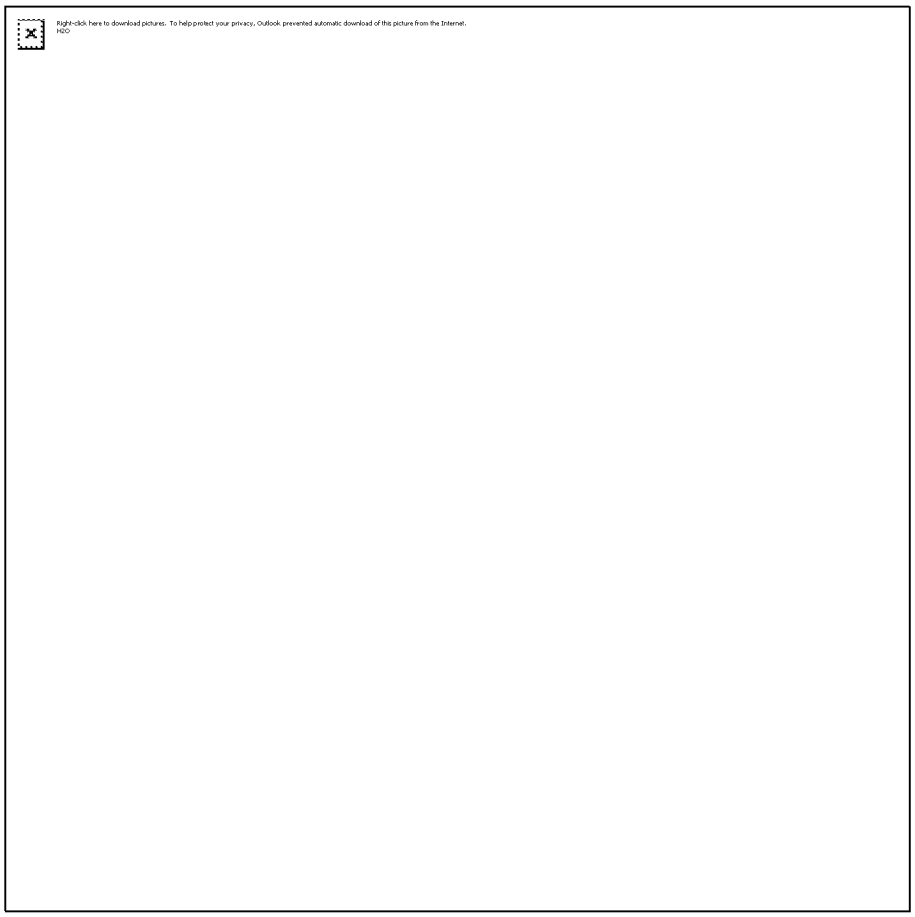
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Marsha & Tiziana 1x1 Meeting

1/28/2016 2:00-3:00 pm

Discussion Topics

- **Marsha's Items** – Marsha

- **Tiziana's Items** – Tiziana
  - Judy Beeler's replacement
    - Interview for Rachael Parkhurst planned
  - Flint Water Emergency Command Center
    - Setup of work space in the Flint State of Michigan Office Building

- **Updates on Previously Discussed Items**
  - State of the State (Jan. 19th)
    - Stream via the internet was a success
  - CRM Upgrade Project
    - Statement of Work was due 1/15/16
    - ITRAC submission still valid by end of the month?
  - Israel Trip – In light of Flint Water Emergency Governor will not travel at this time

- **Pending / On Hold**
  - Cisco IP Phones
  - Comcast Estimate for Cadillac Place

- **Next Meeting**
  - February 11th 2-3pm

Subject: Flint Water Emergency Command Center Update

Hi Marsha,

I have put together a Flint Water Emergency Command Center update to ensure everyone is in the loop as to the progress of getting the Flint office space up and functional. The office area that will be used is located within the Flint State of Michigan Office Building

Printing

- The initial request for a Ricoh Aficio MP301 was cancelled and an HP 476DN has been procured for placement in the office area.
    - Zachary Anthony will pick up the printer this afternoon and plans on having the printer on-site at approximately 3:00PM today.
- The network print queue will be finalized as soon as Zachary submits the network segment information to OA
- The printer should be sufficient to handle the printing and multifunction requirements for the office area.

Network

- The Flint State of Michigan Office Building recently completed a building renovation which included 1GB network connections.
- The office area has sufficient network connections to accommodate the planned activity there. Connections have been tested and are fully functional.
- Wireless access via SOMOTN issues have been worked out and wireless connectivity is available at this time. Wireless connectivity will be tested this afternoon but is expected to be fully functional based on the completion of remediation for the existing networking issues.
- The current network capabilities should be sufficient to handle the networking and internet requirements for the office area.

Telephony

- A conference room type IP phone is available for use in the office area. It has been tested and is fully functional.
- The telephony capabilities should be sufficient to handle the conferencing and meeting requirements for the office area.

Zachary Anthony will be on site this afternoon at approximately 3:00PM today to install and configure any ancillary setups (docking stations, cell chargers, work surfaces) and related collaboration devices. In speaking with Zachary earlier today he is confident that after he completes his activities on-site this afternoon the office area should be complete and functional.

Kudos to Zac for facilitating and acting as the "boots on the ground" in getting the Flint State of Michigan Office Building area configured and functional in a very short time frame!

If you have any questions or concerns please do not hesitate to contact me.

Thanks,

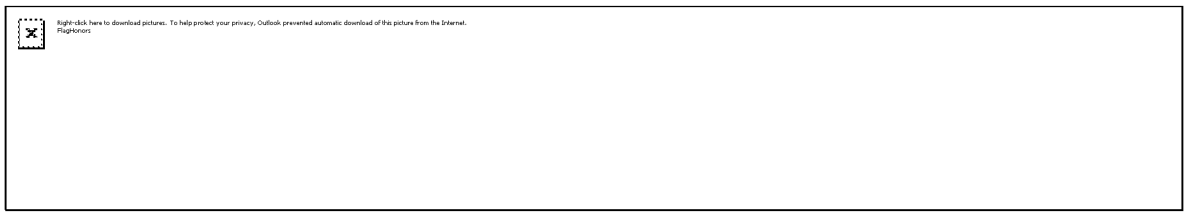
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

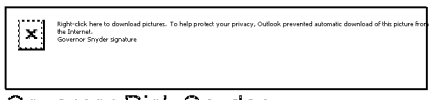
I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,



Governor Rick Snyder

Subject: RE: DEQ-BYOD Pilot

Jarrett,

DEQ would like to take the opportunity to extend the pilot for two months longer. As you probably are aware, as major focus of DEQ management at the moment is the Flint drinking water issue. We would like to engage their interest in expanding the BYOD option at a later date once we feel that some of the more immediate issues have been addressed.

Can you send me a reminder notice on March 21st?

Subject: RE: DEQ-BYOD Pilot

Hi Mike,

DEQ can extend the pilot if you feel you need a longer time to assess the program or we can schedule a meeting to fully-enroll DEQ in BYOD. This would mean all those in DEQ who you, the agency, chooses to participate, may participate. The rate at which we move forward is entirely up to you. We are here to assist you in whatever way you feel is best for your agency. There is no minimum number of employees required to participate in the BYOD program.

I hope this helps!

Subject: RE: DEQ-BYOD Pilot

Jarrett,

What are our options to proceed? As I see it, we could

- allow the six pilot staff to carry on with the BYOD option assuming it works for them,
- advertise the fact that we now have a formal BYOD program and invite additional participants, etc.

Regardless, is that an agency minimum number of staff that constitutes an agency BYOD program? When do you want to know our intentions?

Subject: FW: GOV Forms - Testing

Hi Tiziana,

This is the culmination of many emails between me, Chris and Jibu. I reached out to Zach after I got the scoop and again offered assistance, presenting a couple of options at the bottom of my email to him.

Zach feels that under the circumstances that a delay in the project is appropriate. I would agree. Chris and Jibu are chomping at the bit to get this project completed per their schedule but I have no issue telling them that it will have to wait. They do not seem to realize the gravity of the situation with the Flint Water Emergency and the potential risk this implementation may cause to CRM system stability. Chris communicated that it is really a very simple upgrade but I have been down that road before.

Is it appropriate for me to communicate to Chris and Jibu, in light of the Flint Water Emergency and the criticality of ensuring that CRM remain stable during this crisis, that the project must be placed on hold? I could also schedule a meeting Monday for all involved to discuss and communicate the decision at that time.

Thanks,

Carl

Subject: FW: GOV Forms - Testing

Good Morning Zach,

I have exchanged emails with Chris and Jibu this morning and have offered my assistance in performing the system testing. They have not shared with me much beyond the basics of clicking the links, filling out the test forms and checking in CRM to see if the data has been captured properly. I do not have access to CRM so I would not have a way to verify that, after filling in and submitting the forms, it was captured properly.

I would like to help in any way I can. Would adding me to CRM to verify the form data be the answer. Or, based on the activities in Flint, should the final testing be delayed to no ensure no issues are created due to the testing and/or upgrade project activities?

Thanks,

Carl

Carl,

Below is the list of forms we requested to Zach and have him test. I am not sure what exactly Jibu would accept, but I would be open to you testing these and verifying the data shows up in the CRM. Then we can obtain signoff from possibly Zach and Marsha. Below is the list though and info I gave to Zach.

Thank you.

Subject: RE: DEQ-BYOD Pilot

Jarrett,

DEQ would like to take the opportunity to extend the pilot for two months longer. As you probably are aware, as major focus of DEQ management at the moment is the Flint drinking water issue. We would like to engage their interest in expanding the BYOD option at a later date once we feel that some of the more immediate issues have been addressed.

Can you send me a reminder notice on March 21st?

Subject: RE: DEQ-BYOD Pilot

Hi Mike,

DEQ can extend the pilot if you feel you need a longer time to assess the program or we can schedule a meeting to fully-enroll DEQ in BYOD. This would mean all those in DEQ who you, the agency, chooses to participate, may participate. The rate at which we move forward is entirely up to you. We are here to assist you in whatever way you feel is best for your agency. There is no minimum number of employees required to participate in the BYOD program.

I hope this helps!

-Jarrett

Subject: RE: DEQ-BYOD Pilot

Jarrett,

What are our options to proceed? As I see it, we could

- allow the six pilot staff to carry on with the BYOD option assuming it works for them,
- advertise the fact that we now have a formal BYOD program and invite additional participants, etc.

Regardless, is that an agency minimum number of staff that constitutes an agency BYOD program? When do you want to know our intentions?

Hi Nichole,

I spoke with someone on our team about this situation and they suggest you contact payroll with the same email address you sent the reimbursement information to, asking if they have received the request. This is a shared email account and they do not usually reply to reimbursement requests. The reimbursement is distributed once a month and I suspect the timing of your request may be so it displays on their next paycheck, if not they should reply with information on how to resolve the situation.

Let us know if you need any further assistance!

Thank you,

Jarrett R. Gregory

Subject: Application Outage

Good Afternoon Marsha,

As part of our server refresh project, we needed to bring down the following applications to switch over to the new servers.

1. GOV Board and Commission website (https://somgovweb.state.mi.us/GovernorsBoard/Instructions.aspx)

2. GOV CRM forms website (https://somgovweb.state.mi.us/GovRelations/ShareOpinion.aspx https://somgovweb.state.mi.us/GovCommunication/EagleScoutAchieve.aspx ,etc.)

3. MiResults (https://somgovweb.state.mi.us/GovMiResults/login.aspx)

4. CTS (old: http://gov00bappspa001.migov.state.mi.us:8082/CTSLogin.aspx new: https://govintranet.migov.state.mi.us/GovCTS/CTSLogin.aspx)

The expected maximum outage is 120 minutes for all four applications.

The individual applications are currently being tested by governor's office staff, and we are expecting to go live by the end of next week.

Is there a preferred date and timeframe you would like us to do this?

Thanks

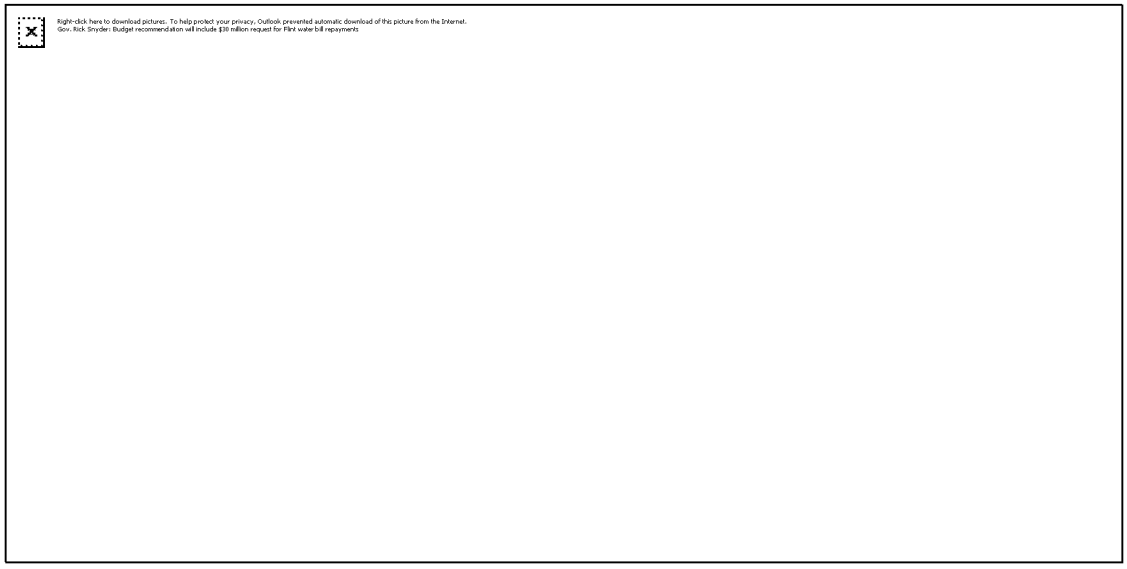
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

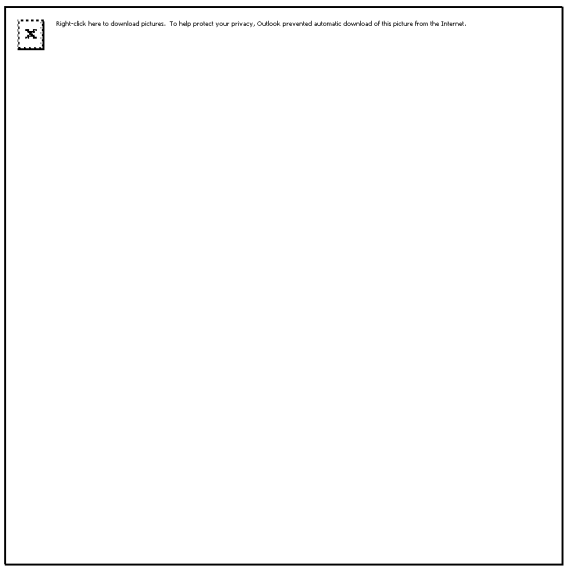
M2 TechCast Feb. 8: MTAM Mobile Michigan Mondays, Inforum Segment Debuts, Young Basile IP Update, Michigan Could Generate Huge Market In Legalized Cannabis Products



FERNDALE – On the Feb. 8 edition of M2 (Squared) TechCast, Linda Daichendt, CEO of the Mobile Technology Association of Michigan, talks about

Mobile Michigan Mondays, Rachele Downs, vice president at Inforum, interviews Justine Sheu, the creator of Detroit Pro:Up, that matches high school students to educational and career development experiences, and Andrew Basile Jr., partner at Young Basile, answers the question, "Can you still patent software?" Also on the show, Jeff Johnson discusses a new report from Supported Intelligence that predicts Michigan would be one of the top 10 states for Legalized Cannabis Sales and the resulting increase in excise taxes that could be used to support state government projects, such as fixing aging roads, bridges and water mains.

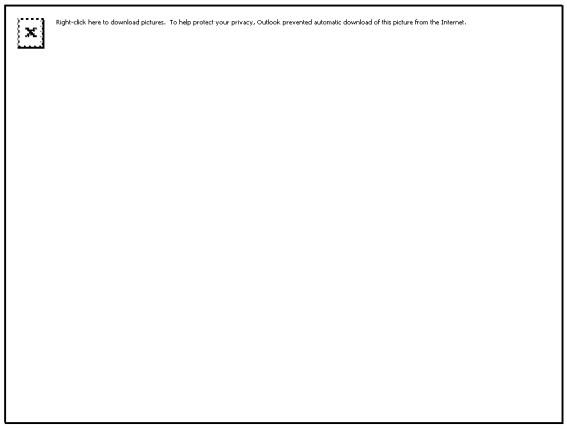
DRONES

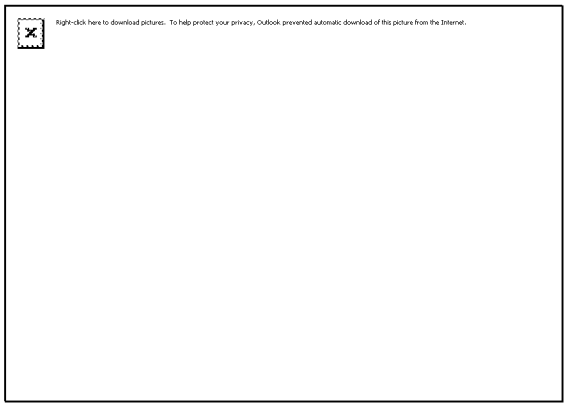
M2 TechCast: Drone Law Pro Enrico Schaefer Talks About Xmas Drone Sales, New Commercial Drone Regs



FERNDALE – Drone Law Pro Enrico Schaefer talks about fourth quarter hobby drone sales. So far some 300,000 recreational drones owners have registered with the Federal Aviation Administration. Schaefer also discusses new rules for commercial drone users that could be completed by end of summer. Plus he talks about how Disney seeks an exemption from the FAA to fly lighted drones over its theme parks, which may put Disney's "no fly zone" for manned airplanes in jeopardy. He also reiterates the tough FAA regulations that if violated can pose criminal and civil penalties. You don't want to miss this podcast if you fly drones.

MOBILE MICHIGAN

Pixo Group Mobile App Showcased In Super Bowl 50 Program



SOUTHFIELD – Pixo Group, a full service, cross platform, interactive development studio, caught the attention of reps from the NFL with its new phaware365 mobile app. Why? Because the mobile app captures a cornerstone of today's culture (the selfie) and couples it with awareness for pulmonary hypertension, a rare, chronic lung disease that can lead to heart failure.

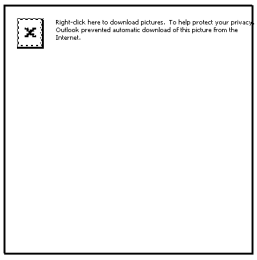
ITInTheD Episode 130: The Flint Water Crisis



FERNDALE – Disclosure: this is not one of our "normal" episodes, but we couldn't possibly be happier…or more proud…of how it all came together and turned out. The Flint Water Crisis is something that we've all heard about on the news, or read about online, or caught conversations about it at the office…but there's a lot we don't know. A LOT. Your most important takeaway? Get yourself to www.FlintKids.org and donate. More than anything else, last night really hammered home for us exactly how insidious and widespread this problem is. And how long the problem was silently ignored and brushed under who knows how many rugs and buried in an unknown number of inboxes. Not to mention the ripple effect that nobody's talking about yet, or how far-reaching these issues are going to remain in people's lives.

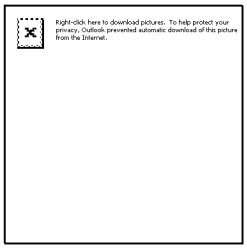
DIVA TECH TALK

Episode 19 Diva Tech Talk: Maggie Lohnes – From Hospital Administration To Entrepreneur



SOUTHFIELD – In this episode of Diva Tech talk, we had a great conversation with Maggie Lohnes, founder of Sound Informatics. After a long and strong career in Healthcare IT, she successfully started her own company. Before that she was hired and created one of the first roles for Nursing Informations at Huntington Hospital. Later, she moved to

Washington State and was hired as an administrator at a five-hospital, 200 physician health system. Eventually, Maggie took a risk and started Sound Informatics to offer sound advice and services to organizations.

MOBILE MICHIGAN MUSINGS

Telamon Mobile, Wireless Employment, Training Opportunities For Farmworkers

GRAND RAPIDS – Telamon, a 46 year-old company, brings human services to people and communities in twelve states, doing business in two of them as Transition Resources Corporation. Chartered as a non-profit organization, Telamon's purpose is to improve the lives of those in need. They do this through the operation of a diverse array of programs for farmworkers, children from low-income families, and other groups with special needs.

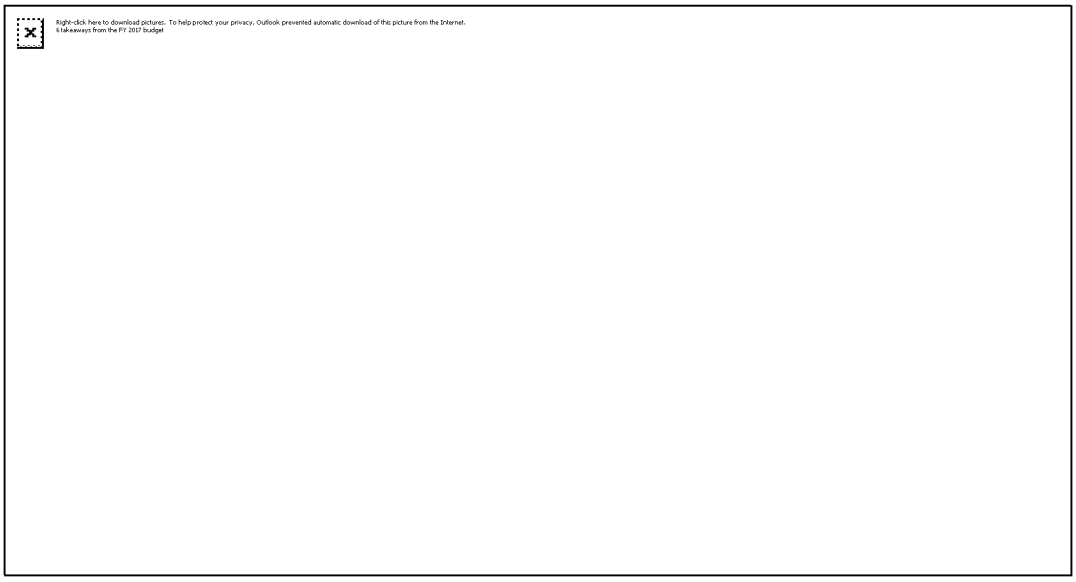
VIDEO: What Governor Snyder's FY17 budget means for Michigan



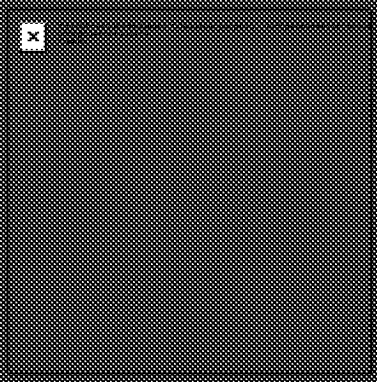
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

Subject: GM communication - DRAFT

Everyone –

As you're aware, the Governor's Office is working to gather email and documentation related to the Flint Water crisis. Each agency, along with DTMB, was invited to a meeting to discuss the details around this FOIA request.

Some information I wanted to share-

- The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis. While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
- If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
- If the agency needs assistance from OA (i.e. due to a large quantity of email/documents or a large group of people) please forward that request to Jodi Simon. Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
- The Governor's Office will provide the key word search topics later today.
- The agency coordinator will determine which employees from their agency are under this blanket FOIA request.

Please let me know if you have further questions.

Thank you,

From: Pung, Linda (DTMB)

Subject: RE: FOIA Project Updates to General Managers

Thank you Tiziana. This update is very helpful.

I will be sending a request to Jodi for OA assistance for MDHHS. They have identified over 100 custodians to date and this list will grow.

Importance: High

Happy Friday All!

As you're aware, the Governor's Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

- The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
- While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
  - If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
  - **If the agency needs assistance from OA** (i.e. due to a large quantity of email/documents or a large group of people) **please forward that request to Jodi Simon.** Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
- The Governor's Office will provide the keyword search terms today to the Agencies.
  - The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

Tiziana Galeazzi

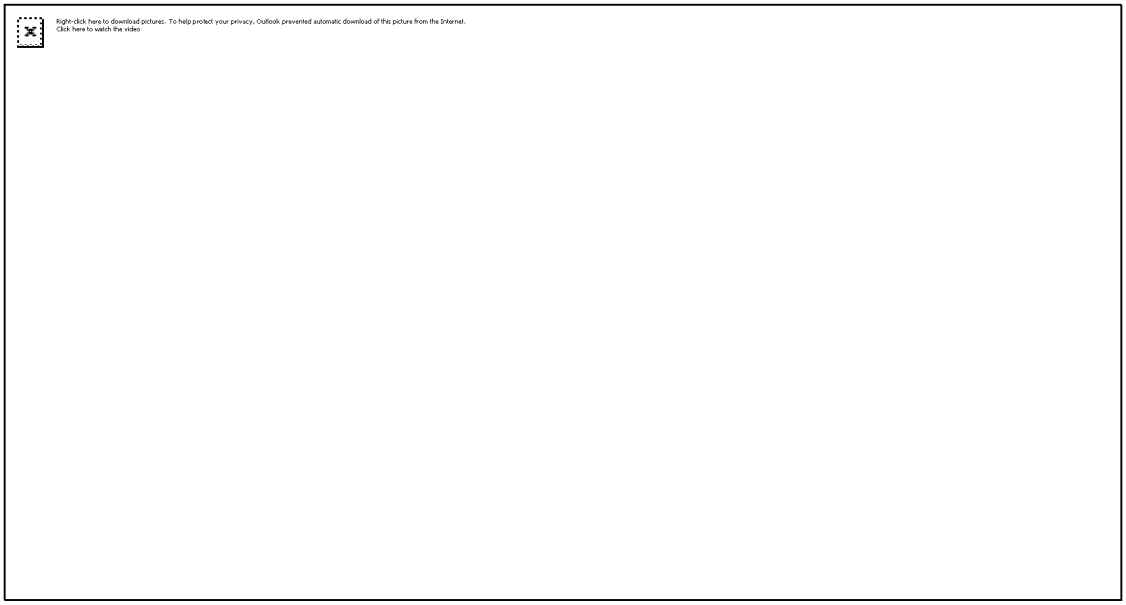
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

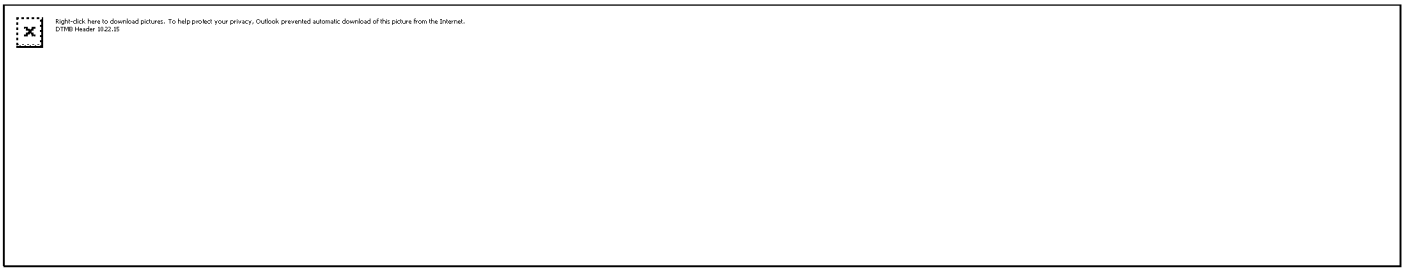
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.

- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

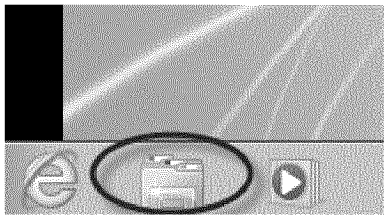
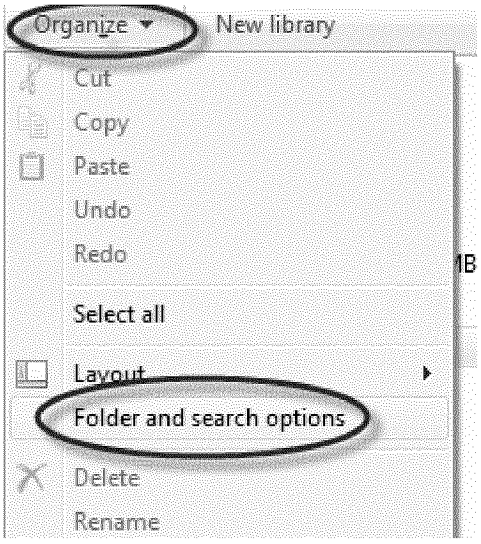
Searching for Files in Windows 7

When you are looking for files that contain certain words either in the filename or in the file text, the Windows search feature will help you do that.

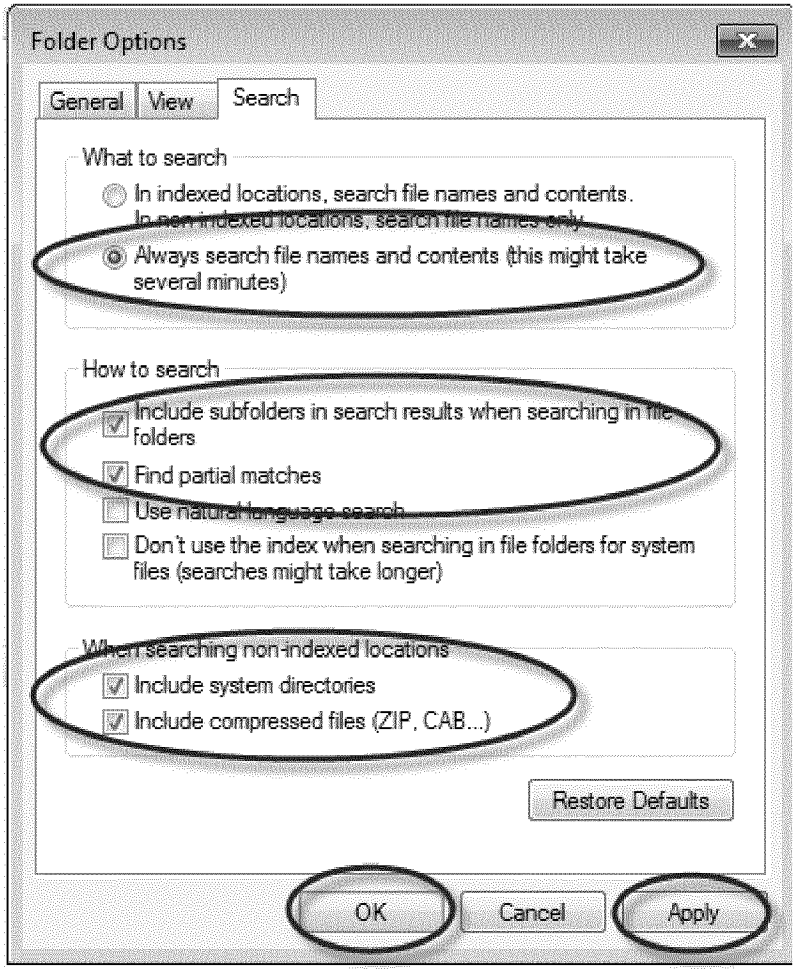
1. First, open Windows Explorer by clicking the **folder** icon on your taskbar.



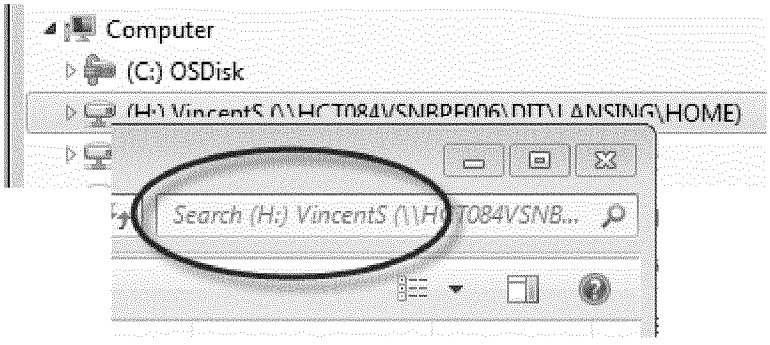
2. Click the **Organize** button, then click **Folder and search options**.



3. On the window that opens, select the **Search** tab. Compare your window to the picture below, and make your settings match.
   When your settings match, click the **Apply** button, then click the **OK** button.
   (You only have to do this part **once**. Windows 7 will remember it for your next search.)



4. Select (click) the **drive** or **folder** you want to search. In this example, we are searching the H: drive. By selecting a drive or a folder, all folders inside that drive or folder will be searched as well.

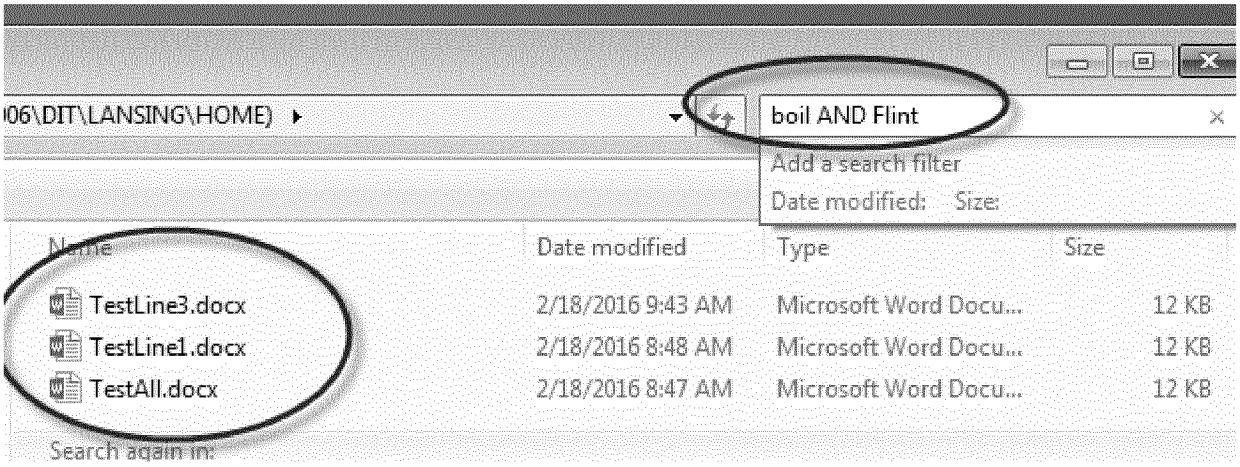


5. In the upper right corner of your Windows 7 Explorer window, the **Search field** will change to show the **selected drive**.

6. If you are searching for two specific words, and only want files that have **both** words, such as boil AND Flint, that's exactly what you enter in the Search field: boil AND Flint.
(The capital letters on the AND are required.)

   In the example below, we copied these words from this document, pasted them into the Search field, and Windows Search found the files that contain both words.

   boil AND Flint

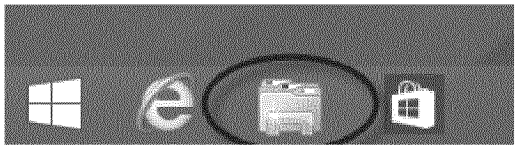


7. It is a little more complicated when you want several words in a specific order, so here are some search phrases you can copy and use. Be aware that Windows 7 Search **is** case sensitive. It will only find matches for the case you enter.

emergency AND Flint	DWSD AND Flint
Legionnaire	Karegnondi
Legionella	"Genesee County Health Department"
"boil water order" AND Flint	Flint AND utilities
coli AND Flint	"Lead and Copper Rule"
bacteria AND Flint	"Detroit Water and Sewerage Department" AND Flint
microb AND Flint	"Flint River"
TTHM AND Flint	Pb AND water
Lead AND Flint	KWA

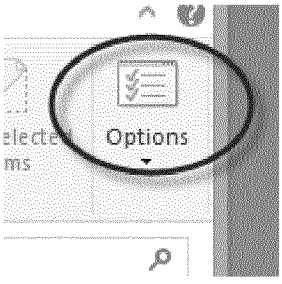
Searching for Files in Windows 8

1. Open Windows Explorer

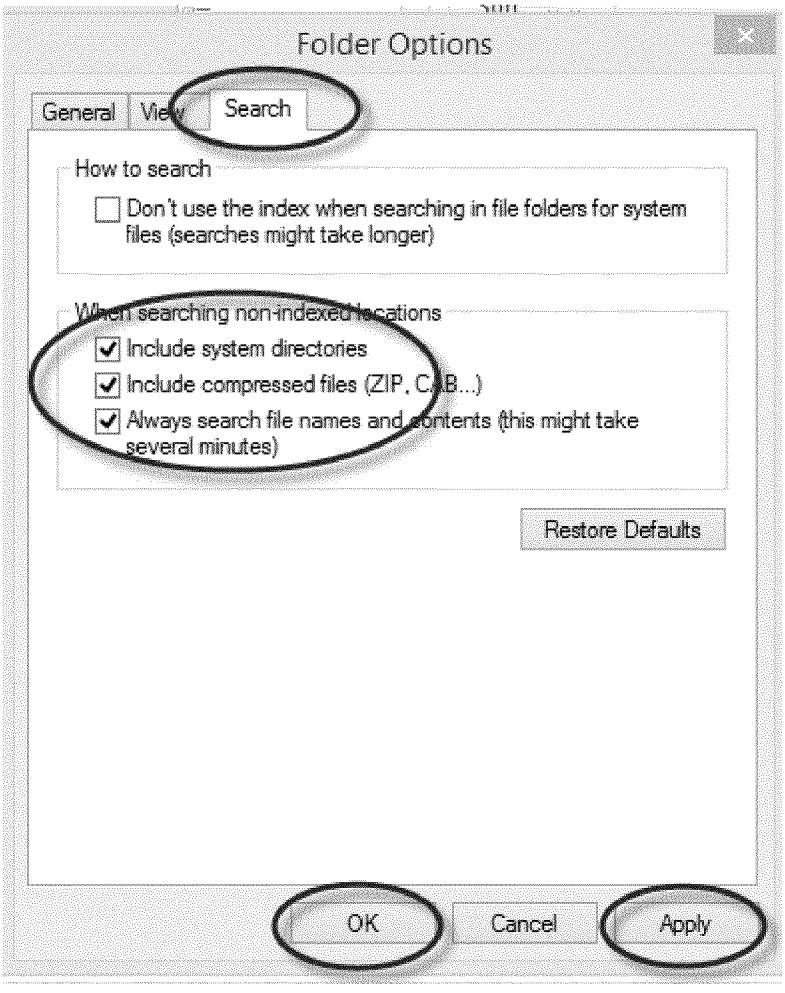


2. Click **View** tab.

3. Click **Options** button.
   A menu will open. Find the choice that says **Change folder and search options**, and click on it.

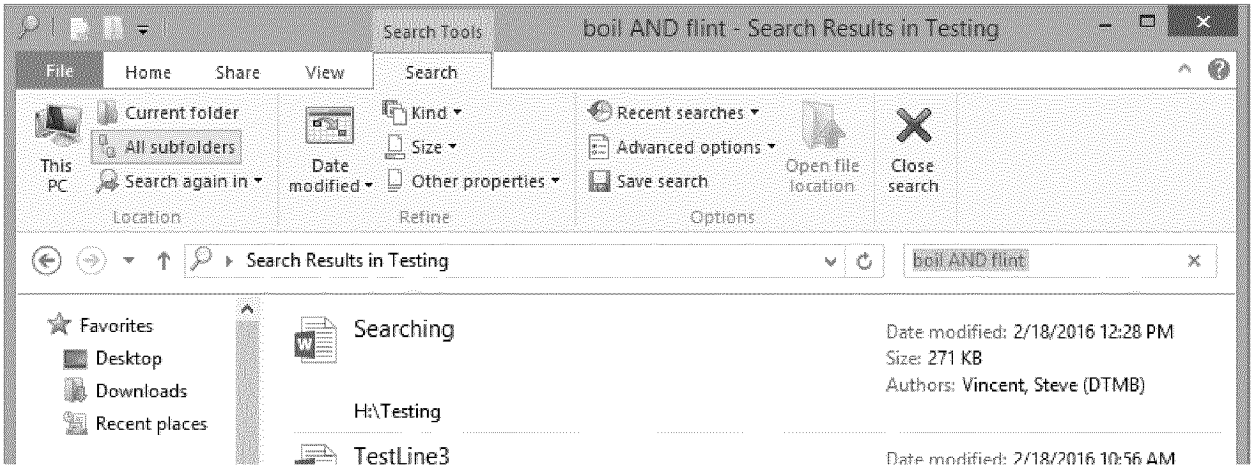


4. The **Folder options** window opens. Click the **Search** tab.
5. Check **all three boxes** under **When searching non-indexed locations**. (Make your screen match the picture shown below.



6. Click **Apply**.
7. Click **OK.**
8. **Double-click** the drive you want to search. That drive will open.

9. Click in the Search box and add your text. If you are searching for two specific words, and only want files that have **both** words, such as boil AND Flint, that's exactly what you enter in the Search field: boil AND Flint. (The capital letters on the AND are required.)
   In the example below, we copied these words from this document, pasted them into the Search field, and Windows Search found the files that contain both words.



10. It is a little more complicated when you want several words in a specific order, so here are some search phrases you can copy and use. Be aware that Windows 8.1 Search is **not** case sensitive.

emergency AND Flint	DWSD AND Flint
Legionnaire	Karegnondi
Legionella	"Genesee County Health Department"
"boil water order" AND Flint	Flint AND utilities
coli AND Flint	"Lead and Copper Rule"
bacteria AND Flint	"Detroit Water and Sewerage Department" AND Flint
microb AND Flint	"Flint River"
TTHM AND Flint	Pb AND water
Lead AND Flint	KWA

11.

	A	B
1	**Issue**	-Content listed in this spreadsheet was not migrated and should have been. -The reason it was not migrated was because the primary category is "Dead" or expired. -The reason it SHOULD have been migrated is because the content is ALSO associated to one or more categories that are still live and in use on mi.gov.
2	**Solution**	Change the Primary Category to one of the Live Categories in use.
3	**Challenge**	Finding Content in this condition
4	**What eMichigan did**	eMichigan found all the content in Dead Categories that was also associated to Live categories.
5	**Your Task**	Identify which content is yours and change the Primary Category from the Dead Category to a Live Category prior to the next "Delta Load". Report back to eMichigan what you have changed.
6		
7	**INSTRUCTIONS**	
8	Tab: AssocLiveCategories	Identify the content you need to change/edit. To do this, go to the Tab: AssocLiveCategories
9		Look at the column: Associated Live CATEGORY_PATH and locate the categories which you are responsible for. You may find a piece of content listed in multiple categories. For an example, see the yellow highlighted content on that tab (content ID 14350 in rows 139 - 141).
10		Note the Dead PRIMARY_CATEGORY_ ID (in this case 7306)
11	Tab: DeadPrimaryCategory	This can also be found on the Tab: DeadPrimaryCategory. The example is highlighted in yellow on that tab as well (row 687).
12		This second tab serves as a cross-check and a different way of displaying the same content items.
13	CMA	In the CMA search for the Content ID number (in our example 14350) and edit it.
14		Decide which of the Associated Categories will be the NEW PRIMARY Categor
15		Next to the Primary Category Field at the top of the screen, Click Update Category.
16		Select the desired new Primary Category and click Update
17		The new Primary Category will be displayed.
18		At the bottom, under Associated Categories, you must now delete the EXTRA association to this same category.
19		The result will be only one of each LIVE category.
20	Record your Changes	After you have completed the update, Record your changes for eMichigan.
21	Tab: Recorded Changes	Go to the Tab: Recorded Changes and list the Site, Content ID Number, Dead Category ID Number and the New Primary ID Number. See the example highlighted in yellow on that tab.
22	Return to eMichigan	When you are finished, return the saved Spreadsheet to eMichigan. Return to christensend@michigan.gov as an email attachement.
23		
24	**Note:**	When there are multiple choices for a new Primary Category, stay away from categories such as What's New or Spotlight. Try to use a category where the content will be more permanent.
